Using The For Sale Lists

Prices are based on current values and recent comp sales, and prices are subject to change at any time. Comp price "Yes" means there are recent comps sold at this price. Comp price "No" means there are no comps, or nothing recent to base a price on. Comp price blank means I need to research the price. Also, prior to a sale, I will review and possibly update the price of any item whose "Date of last price check/update" is older than 180 days.

Please use my item #s to ID the piece(s) of interest to you when you contact me. I have more pictures of all for-sale items that I will send you.
