Lid Type -

**Details:**

*This type of collectable glass inherently has mold lines and mold marks, minor defects, internal bubbles, and swirls of color. Please review all photos and ask questions.*

Berreteaga Advertising Bottoms Up Cup. Made in the 1930s. Modeled after McKee bottoms up cups. The woman in this version has highly detailed hair and hands. Cup is embossed "BERRETEAGA THE BEST DRINK IN MEXICO" (see photos). Glass has typical mold marks, minor defects, and swirls. I purchased this piece in 2000.

#### Details:

*This type of collectable glass inherently has mold lines and mold marks, minor defects, internal bubbles, and swirls of color. Please review all photos and ask questions.*

Guernsey (brand) made these cups in 1978. They are reproduction pieces made to resemble McKee bottoms up cups. Guernsey produced four colors as far as I know. I have an example of each color for sale. Not many were made. No patent number under the feet. They are good examples of well-made reproductions. I purchased this piece in 2000.

***This type of collectable glass inherently has mold lines and mold marks, minor defects, internal bubbles, and swirls of color. Please review all photos and ask questions.***

Graded higher due to rarity. There is a horizontal mold separation line in the loop handle. In person, it can be seen that the glass flowed in both directions to this defect (see photos). There is one embedded dark spot on one of the juicer vanes, and one in the bottom of the reamer bowl. There is an indentation deformation on the rim near the handle (see photos). There are molding deformation on the vanes near the intersection of the cone and reamer bowl (see photos). I have seen a photo showing two others of this reamer, and I was also told those were the only others known to exist.
